SUPPLEMENT **To Automotion Catalog #5**

PROJECT 924

CATALOG #5

Designed and written for Porsche enthusiasts by Porsche enthusiasts, Automotion's newest catalog has something for everyone.

Boutique. We carry many lines of apparel — jackets, sweaters, sport shirts, hats, visors, and gloves. Plus necklaces, sunglasses, luggage, patches, decals, badges, posters, Porsche models, and three pages of books.

Accessories. The very best in car covers, bras, lights, mirrors, security and radar systems, seats, steering wheels, floor mats, gauges, and interior appointments are available from our vast inventory.

Fiberglass. We offer the finest fiberglass in all the popular air dams and spoilers. And extra care is given to all fiberglass shipments, to ensure that you receive them in good condition.

Restoration. Every year we expand our offerings for Porsche enthusiasts who are restoring their cars or just replacing some tired looking rubber seals. Our whole range of deco trim strips, rubber seals, lights, upholstery and bright work will make any older Porsche sparkle like new.

Suspension. Wheels, lug nuts, spacers, tire gauges, shocks, springs, torsion bars, sway bars, CV joints, tie rod ends, axles, brake rotors, brake pads, rebuild kits — the list goes on and on — everything from standard replacement components to our own design of competition parts. We are the largest warehouse in America of Porsche suspension components.

Exhaust/Intake. We have both ends covered. Heater boxes, stock exhaust systems, Monza and Bursch mufflers, headers, and thermal and catalytic replacements. And on the intake side we have Weber carburetors and kits, K&N filters, rebuild kits, and many replacement parts.

Tune-Up and Rebuild. Everything for rebuilding your engine or just changing your oil. All parts are original quality, plus some new items to make working on your car easier

This is Project 924; it started life as a 1980 924 Turbo. After 985 miles it was totally stripped; only the interior, upholstery and the dolomite paint remained on the car. The engine was disassembled and blue-printed to ensure all the performance that the factory designed. Our only changes to the engine were the addition of a pre-oiler kit to add longevity to the turbo bearings, and a prototype K&N air filter.

The suspension was completely redesigned and refabricated. All our engineering here was done with one idea in mind — to learn how the 924 handles on the track, and how to make it the best handling car on the road. This aspect of Project 924 will no doubt continue for a considerable period, as we develop and refine new suspension products. These new products will become available as soon as their quality and performance are proven.

Interior appointments have been improved with a Recaro racing seat, VDO gauges, the Porsche Design MOMO steering wheel, an Autopower roll bar, and Deist safety harnesses. To the exterior we have added extended fenders and spoilers. This design is being finalized into a complete kit for 924 owners. This dynamic design gives the car a much more crisp and aggressive appearance. The exterior is finished with a Saratoga top, and beautiful BBS wheels.

and to give your car longer life. We also have tools to make your work quicker and more accurate.

Racing. Our selection of Nomex race suits, safety belts, roll bars and other safety requirements are the best on the market.

That's just the products we offer in our catalog. We also include tech tips, model information, and countless pictures to provide you more detailed information about your car and our products. We provide all this in the hope that you will think of Automotion when you need quality parts and accessories for your Porsche, or just when you need information or advice about the world of Porsche.

Order Catalog #5 today; only \$3.00, refundable. (\$5.00 by Air Mail.)

Z-BEAM

Cibié's most popular headlight, the Z-Beam features a unique prism design to reduce side glare and project a low pattern of bright white light ahead of the car. The H-4 quartz bulb gives greater light penetration on both high and low beam and adds safety to night driving. For off-road use only.

CL-703402 With bulbs pair \$93.80

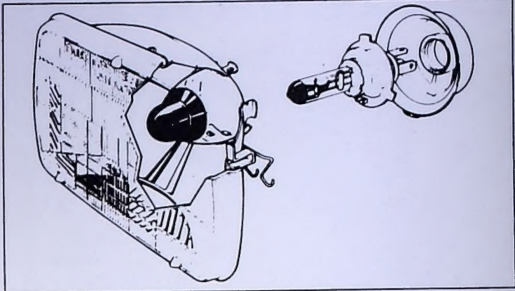

NEW 911/930 CIBIE

New Cibié driving and fog lamps are designed to mount directly to all 1974 and later 911 and 930 Porsches. New features include black metal backs and heavy duty mountings. A perfect complement to late Porsche styling. H-2 bulb is included with each lamp.

CL-350902 Driving light each \$62.95
CL-351702 Clear fog each \$62.95

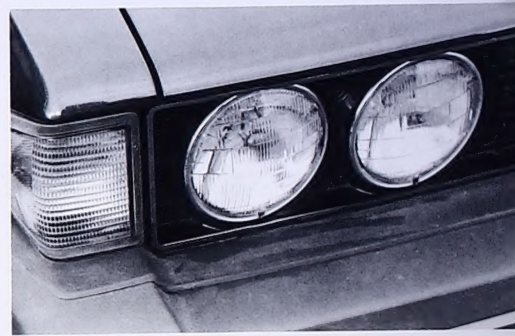

CIBIE BOBI LIGHTS

The revolutionary Bobi quartz lights are legal in all 50 states! This quartz-halogen headlight meets federal DOT specifications, yet uses the H-4 quartz-halogen bulb. These lights flood the road ahead of you with a low pattern of white light. Available in either the standard 7" round headlight, or the 5"x 7" rectangular units. Price includes bulbs.

CL-704405 7" round pair \$79.90
CL-764405 5"x 7" rectangular pair \$79.90

QUAD CIBIE LIGHTS

Replacing the low beam in a quad light system with these H-4 quartz-halogen units adds safety and comfort to your driving. Replacing the high beam with this H-1 unit gives an amazing 8600 feet of reflective light. The H-4 and H-1 can be used separately or together. For off-road use only.

CL-572802 H-4 low beam, with bulb each \$36.85
CL-570807 H-1 high beam, no bulb each \$32.85
QB-014-102 H-1, 55 watt bulb each \$ 5.95
QB-014-103 H-1, 100 watt bulb each \$ 8.95

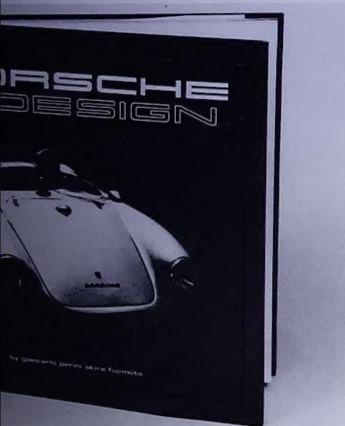

SUMMER

Style Auto's competitive summer jacket in light, comfortable material. Smart, stylish look. Seen at the races and clubs. Choose between black, white, or navy.

PD SUNGLASSES

Porsche Design Carrera Sunglasses are the height of both beauty and function for men and women. Two sets of interchangeable lenses come with these sunglasses — one set in brown and a second set in polarized grey. The cleverly designed frames facilitate easy changing of lenses. The protective case keeps the sunglasses and extra lenses safe and sound. We have both a large and a small size.

SG-5621	Black matte frames, large	\$84.95
SG-5623	Black matte frames, small	\$84.95

TOYS FOR ADULTS

At last! Porsches you can keep in the living room, bedroom, or give as gifts. These soft-sculptured cars are put together with loving care. They measure 16 inches long and 8 inches tall. The fabric is 65% cotton, 35% polyester, while the stuffing is non-allergenic polyester fiberfill. Both models are a

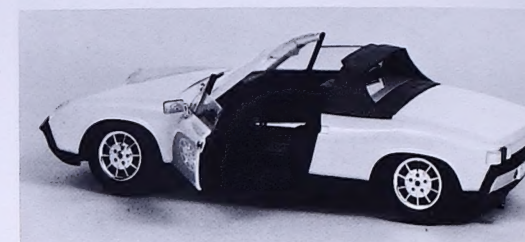

DIECAST MODELS

Ready to display 1/43 scale models of your favorite Porsches. Each is about four inches long and perfect for desktop or bookshelf display. 917 has removable rear body, others have opening doors.

MK-1051	924 Turbo	\$13.95
MK-1049	928	\$13.95
MK-1063	930 Turbo	\$13.95
MK-1018	917/10 Race Car	\$13.95
MK-1032	935 Turbo Carrera	\$13.95

NEW MODELS

Two model kits have just been re-released, and we now have them in stock. The 930 is a model of the car as it was introduced at the October 1974 Paris Auto Show, where it was called the 911 Turbo. The 914 kit is a model of the popular 914-6, with the finished model being over eight inches long.

MK-0371	930 1/24 scale kit by Otaki	\$12.95
MK-9023	914 1/20 scale kit by Entex	\$12.95

CRESTED GLASSWARE

Encouraged by the success of our popular crested beer mugs and coffee mugs, we have sought out a quality wine glass and carafe to add to our stock. The three-color crest is dishwasher proof to give you years of enjoyment. Just the thing when Dr. Porsche drops by for a visit.

GW-1600	Wine glass each	\$4.25
GW-1800	Full carafe each	\$7.95

CHIN SPOILERS

Factory style chin spoilers for all late 911 and 930 Porsches. Not only is this update stylish, but it also refines the aerodynamics to produce better road holding and improved gas mileage.

FS-900	74-81 911, 912	\$207.95
FS-905	76-80 930	\$269.95
FS-910	911 Mounting kit	\$ 29.95
FS-915	930 Mounting kit	\$ 31.95

PILLOW CASES

What next, you ask. Well, we don't know what will be next, but we hope it is as high-quality as these custom screen-printed Burlington pillow cases. Manufactured 140 threads to the inch from polyester and combed cotton, and trimmed in contrasting satiny stripes, these pillow cases make a dreamy gift, or a great conversation piece in the guest room. Select from tan, ivory, or light blue; standard or king size. Shipped in matching pairs.

PC-100	Standard, tan	\$17.95
PC-105	Standard, ivory	\$17.95
PC-110	Standard, light blue	\$17.95
PC-120	King size, tan	\$19.95
PC-125	King size, ivory	\$19.95
PC-130	King size, light blue	\$19.95

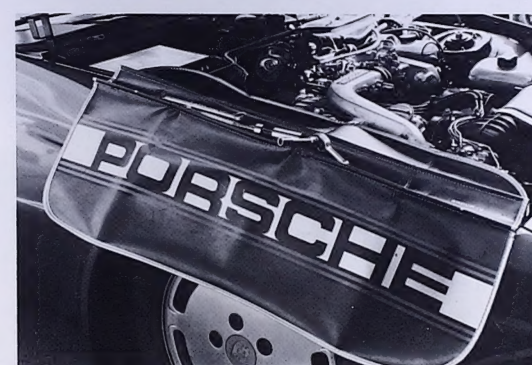

ACCENT GRAPHICS

porsche

Accent your car with these diecut letters to set it apart from the crowd. Easy to install on bumpers, body panels, or glass. Size is 10 inches long, and they come in black, gold, or white.

AG-100	Black	pair	\$5.95
AG-200	White	pair	\$5.95
AG-300	Gold	pair	\$5.95

FENDER COVER

Made from gas and oil resistant vinyl, this fender cover protects your car's finish while you are working on it. The rubber foam backing holds it in place while work is being performed. Great for the 924, 928, and even the 914.

FC-700	\$19.95
--------	---------

PRODUCT UPDATES

Ski Rack

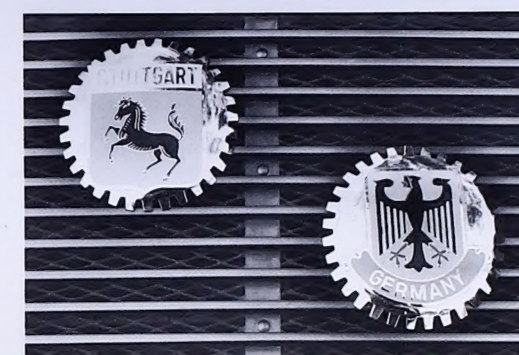

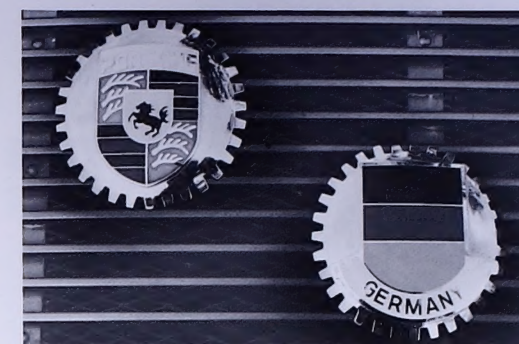

We now have Mohn ski racks for the 924 Turbo. Same great fit, protection, and price.

MR-9024T	\$54.95
----------	---------

Colgan Bra

We now carry Colgan bras for late 1974-77 911's and 1978-81 911SC's with the factory rubber chin spoiler in the front. When you order one, just add the letter "C" after the part number shown in your catalog. If you need assistance on your selection, please call us. (408) 736-9020.

GRILL BADGES

Beautiful badges with rich enamel colors. All metal construction for years of enjoyment. Complete with mounting hardware. Choose one or a selection to adorn your car.

GB-1228	Porsche crest	\$15.95
GB-1057	German flag colors	\$15.95
GB-1255	Stuttgart crest	\$15.95
GB-1058	German eagle	\$15.95

GLOSSY DECAL

This classy decal has hundreds of applications. Made from a glossy, heavy-duty plastic, it is great for dressing up hub caps on aftermarket wheels, customizing helmets, refrigerators, or what have you. Glossy black background sets off the crest.

DC-030	1-5/8" diameter	\$1.25
--------	-----------------	--------

PORSCHE DESIGN MOMO

From the same design group responsible for the now-classic Porsche chronograph and sunglasses comes a unique, steering wheel. Executed with true craftsmanship by MOMO. Spokes on this fine wheel are black anodized tubes and the hand-picked leather is crafted to the wheel without stitching to give a supremely comfortable grip. May be the ultimate wheel. Specify year and model of car for proper hub adapter.

MO-7900	Steering wheel	\$318.00
MO-7901	Optional center pad	\$ 36.00
	Hub adapter	\$ 31.95

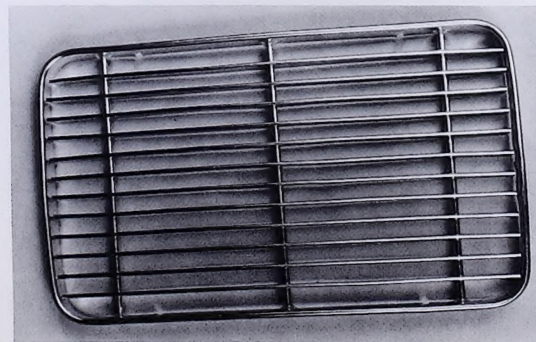

914 SCHEEL SEAT

Back in the country after a long absence, this is the finest seat we have seen for the 914. The double-wall bucket is plenty strong and covered with a fine naugahyde and nylon cord insert. Complete with headrest; no mounting adapters are necessary. Available only in black. Shipped by truck freight collect.

SS-114 \$389.00

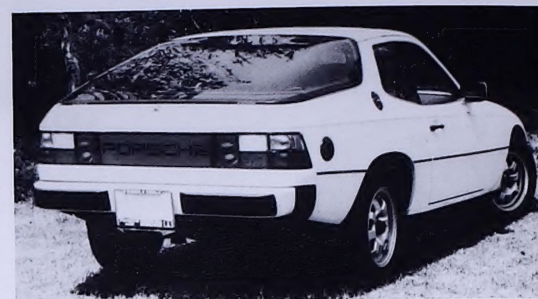

356 ENGINE GRILL

Now available for the first time, replacement aluminum grills for the engine lid. Spruce up your 356 with sparkling new grills. Fits only 1957-1965 coupes.

644.559.041.07 each \$59.95

924 LIGHT KIT

Illuminated rear lens highlights this stylish 924 conversion. Built-in lights show off your choice of lettering. Kit is complete with templates, instructions, and an illuminated license plate bracket.

BC-910	"PORSCHE" lettering	\$89.95
BC-915	"TURBO" lettering	\$99.95

LEATHER CLEANER

Lexol penetrates built-up dirt and grime so these stains can be easily removed from your leather interior. Lexol has been successfully used and endorsed for years by antique and restoration experts. One cautionary note — Lexol is basically a cleaner and repeated use can dry out the leather. We suggest the use of Lexol for cleaning leather and regular use of Hide Food (see page 9 of Catalog #5) for conditioning and maintaining leather.

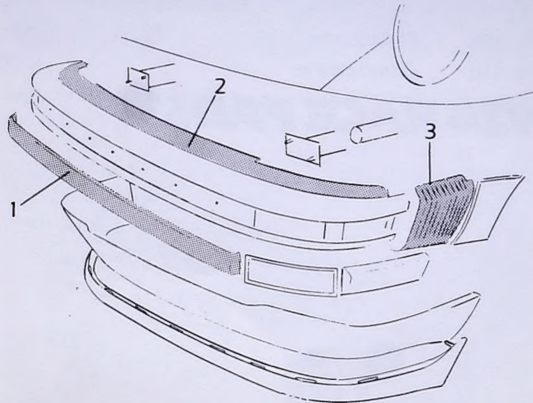

LX-100	1 Liter can	\$5.95

TECH TIP

A rough idle on the 911 ISC can often be caused by a worn oil filler cap seal. The CIS idle circuit depends upon a sealed engine in order to correctly meter the fuel quantities. Replacement part number is 930.107.272.00 and can be obtained from your local dealer.

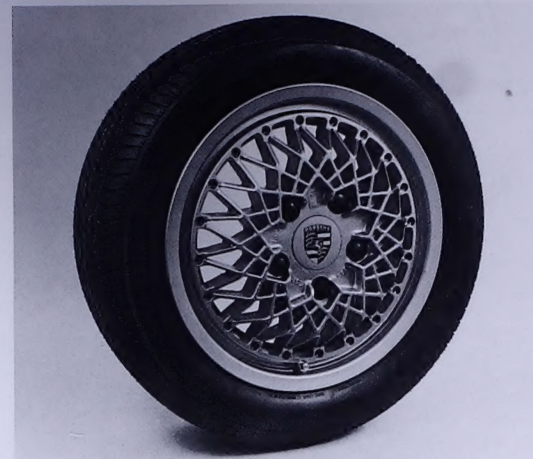

KONTROLLE SHOCKS

Kontrolle (pronounced "Control") is a genuine performance shock absorber that you can buy at a reasonable price. Not a race shock, but with 60/40 valving and increased damping rates, this is a shock absorber that will satisfy the most demanding driver. In addition to hydraulic units, we also have gas shocks for the rear of most Porsches. A lifetime warranty — limited to the original purchaser — supports Kontrolle's claim that Kontrolle shocks are quality manufactured and built to last. All prices are per pair.

WHEEL CLEANER

Especially effective cleaners to remove brake dust and built-up dirt, leaving your wheels sparkling clean. Blue Turbo wheel cleaner is non-acidic and formulated to work with factory alloy wheels, polished mag wheels, and BBS wheels. Green Turbo wheel cleaner is for use only on chrome steel wheels or rough cast aluminum wheels. Each bottle contains 32 ounces and has a pistol sprayer.

TC-100	Blue cleaner	\$6.95
TC-110	Green cleaner	\$6.95

924 RACE PADS

The famous Ferodo Brake Pads are now available in a race version for the front of the 924. This is the DS11 compound used for racing around the world including most Formula One cars.

FDB-123	924 Standard Front	\$59.95
---------	--------------------	---------

TECH TIP

Sticking or erratic pedal action may be the first sign that it is time to replace the master cylinder. Leaking fluid causes the factory bushings to swell. Now is the time to replace the pedal bushings with our bronze replacements.

924 TURBO OILER

Bearing failure on the turbo unit of the 924 Turbo is caused by oil draining from the hot bearings after engine shut-down and not being instantly available again at engine start-up. Replacing these bearings is an expensive, exacting job. Now we have a solution. The Turbo Oiler, by using a check valve and reserve tank, delivers oil instantly to the turbo bearings at engine start-up, ensuring longer bearing life, as well as peace of mind. After engine start-up, the reserve tank automatically refills. Our kit is custom fabricated and has been tested on our Project 924 Turbo. All lines are high-temperature braided steel with aircraft fittings; all brackets and hardware are included along with a full set of instructions. Our Turbo Oiler kit is designed to be a bolt-on installation requiring no welding or additional fabrication. It does, however, require removal of the windshield washer bottle.

Because the 930 Turbo mounting position is different from the 924, it does not require the Turbo Oiler.

TO-924

\$395.00

924 TORSION TUBE MOUNTING KIT

This eight-piece set of bushings and mounts (2 not shown in photo) secure the torsion bar tube and the locating casting solidly to the car. This eliminates flex and movement of the suspension and gives better road holding.

We recommend this only for competition use. For all 1978-1/2 and later 924 rear suspensions, including 924 Turbo.

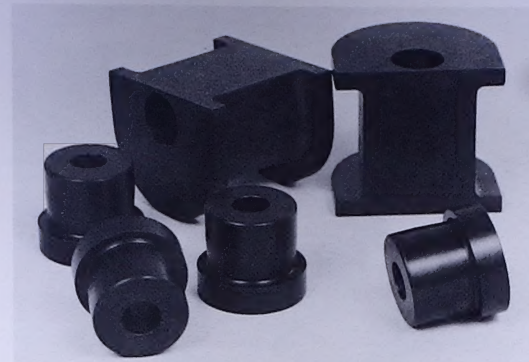

TM-100

Set of eight

\$249.00

924 BUSHINGS

From our Project 924, we have developed new front and rear plastic suspension bushings made from polyurethane. They give the car better suspension compliance for improved road handling.

PB-015	Rear spring plate outer bushing, 1976-78-1/2, 2 per car	each	\$16.95
PB-016	Rear spring plate inner bushing, 1976-78-1/2, 2 per car	each	\$16.95
PB-017	Rear spring plate outer bushing, 1978-1/2-81, 2 per car	each	\$16.95
PB-018	Rear spring plate inner bushing, 1978-1/2-81, 2 per car	each	\$16.95
PB-019	Front A-arm, forward bushing, all 924, 4 per car	each	\$12.45
PB-020	Front A-arm, rear bushing, all 924, 2 per car	each	\$16.95

924 DROP LINK KIT

This bolt-on kit of adjustable drop links for 924 rear sway bars eliminates any pre-load in the sway bar setting. Our quality left-hand and right-hand spherical rod ends allow adjustment without removal from the car. Fits all 924s 1978-1/2 and later.

DL-830 pair

\$79.95

914 100 LB. REAR SPRINGS

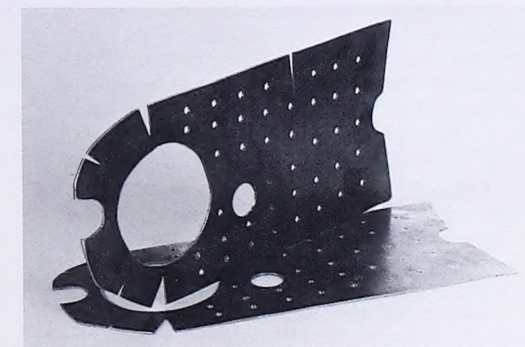

Cure the sagging rear end of your 914 with our new springs. The original 60 lb. springs are too light and collapse quickly. We have remedied the problem with our 100 lb. springs. They set the fender lip about 1-1/2" to 2" above the wheel and are softer riding than our 140 lb. competition springs. An excellent buy.

SP-100

pair \$59.95

914 BOXED ARMS

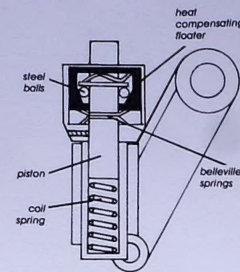

Our experience from Walt Maas' winning IMSA GTU 914-6 taught us a great deal about the tendency of 914 rear suspension arms to bend under constant cornering forces. Now we are also finding this occurring in autocross and time-trail 914's. The cure is to box the arms with .100" steel plates. We are now offering a pre-drilled, ready-to-form kit.

BA-914

pair \$109.00

HOEPTNER CHAIN TENSIONER

Better than the original? Look at these impressive features:

1. Automatically adjusts for chain tension.
2. Automatically adjusts for chain wear.
3. Automatically adjusts for engine expansion and contraction from temperature changes.
4. Adjustment is not dependent on seals or other heat-sensitive parts.
5. No special tools required.
6. All stressed parts manufactured from steel and hardened to Rockwell C58.
7. Complete unit, needs no assembly.
8. 12 month warranty.

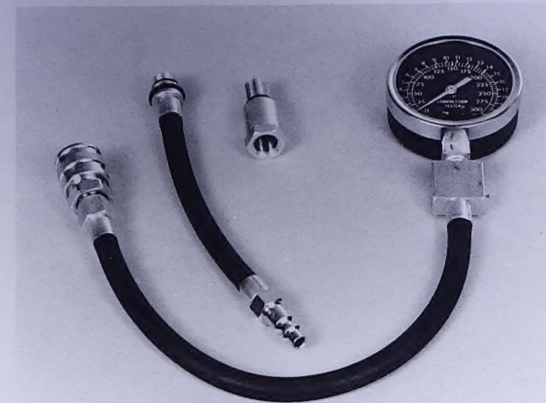

Tested for over three years on the road and on the track, the Hoeptner Chain Tensioner is the most accurate and safest chain tensioner for your 911 or 930 Porsche engine. The design features a coil spring pressing the chain tensioner piston upward against the chain wheel lever, with a patented floater and eight steel balls to ratchet the piston to the proper chain tension. All this is accomplished automatically by the unique ratcheting design.

Factory style hydraulic chain tensioners fail from unreliable seals, while solid chain tensioners cannot compensate for the 2.5mm of thermal expansion and contraction from changing engine temperatures. This can cause premature wear and failure of chains, sprockets, bearings, and intermediate shafts. Hoeptner Chain Tensioners give you the best of both worlds—insurance against tensioner failure, along with compensation for thermal changes. These just may be the last chain tensioners you ever have to buy.

Better than the original? We think so, and we back them up with a 12 month warranty.

CT-9000 65-79 911, All 914-6 and 930 each \$149.90

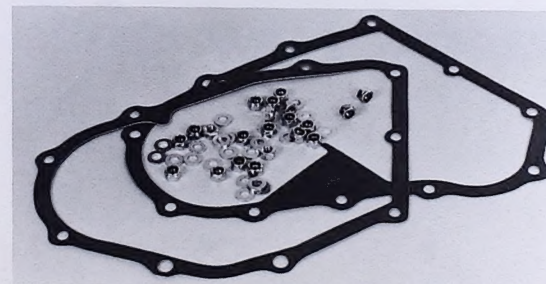

COMPRESSION TESTER

We have never offered a compression tester before because none were appropriately designed for use on Porsche engines. All that has changed now. This kit includes a 14-inch hose and a 7-inch extension, so all spark plug holes are easy to reach. And there are adapters for all size spark plug holes. The gauge is very easy to read, has an easy-to-reach release valve; and best of all, a quick disconnect fitting makes installation of the hose a snap.

CT-100 \$23.95

CHAIN COVER GASKETS

Seal your chain covers with our graphite gaskets, new aluminum washers, nylock nuts. These gaskets are heat-resistant, seal better, and are easy to remove—a complete service kit for work on your chain tensioners or cams. Kit services both sides of the engine.

CG-900 911 1968-on, 914-6, 930 \$9.95

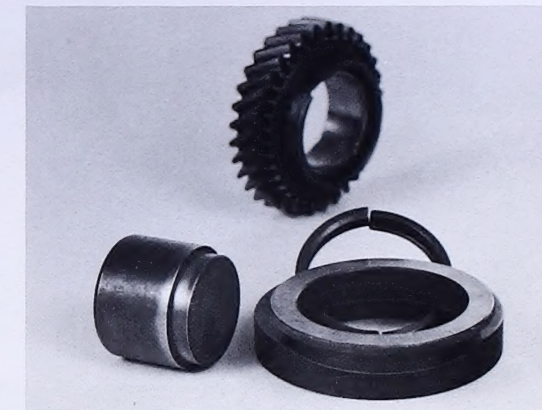

RING COMPRESSOR

This is the simplest ring compressor we have seen. Easy to use, it gets the job done quickly, making engine assembly foolproof and safer.

RC-800 82.5mm through 87mm \$5.95
RC-810 88mm through 96mm \$5.95

GEAR RING REMOVER

When you must replace the toothed ring on transmission gears, this tool will make the job faster and safer. Manufactured from heat-treated quality steel, the gear ring remover will give you years of reliable use. For all 914 and 1965-71 911 and 912.

GR-200 Tool \$69.95

EXHAUST UPDATE

We now have headers for the 1980 and later 924.

EH-1049 80-81 924, except Turbo \$ 89.95

We also have 928 catalytic converter replacements for the 1980-81 cars. For off-road use only.

CR-928L 80-81 928 \$209.95

ORDERING INFORMATION

How to Order

You may order by phone or mail. Mail is less costly than phone calls and use of the order forms gives you an opportunity to have a record of the order. If you need product information call us at (408) 736-9020 Monday through Friday 8:30 a.m. to 5:30 p.m. Pacific time; no collect calls please.

With each order we will send you additional order forms. Please include all information about your car and give us the full part numbers from the catalog. The more complete the order form, the faster we will be able to process your order.

Payment Terms

We gladly accept your personal check, money order, certified check, MasterCard, or VISA. Make checks payable to Automotion. All personal checks must clear the bank prior to shipment. This may take up to 30 days, but we will do everything possible to speed up processing of your order.

We do not make C.O.D. shipments. All orders must be prepaid. This assures you the quickest service and lowest cost.

California residents add 6% tax. Santa Clara County residents and BART district residents add 6-1/2% tax.

For orders outside U.S.A., please use the "Orders to Foreign Countries" section on this page.

Shipping

All shipments leave here the quickest and most economical way, which is generally U.P.S. We must have a full street address for all U.P.S. deliveries. We do not ship by bus.

Please consult the chart below for your shipping cost. This is only a portion of the overall handling, packaging, and shipping costs—we pay the remainder. We can ship U.P.S. Blue Label air freight to Hawaii, Alaska, and many parts of the continental U.S. The additional cost of air freight is listed on the chart. Some large items (fiberglass seats, roll bars, etc.) are too big to be shipped by U.P.S. These are noted in the catalog and will be shipped to you via truck freight collect. You pay the truck carrier upon delivery for the freight charges; this can range from \$25.00 to \$50.00, depending upon weights and distances. Do not include shipping money for items that must be shipped via freight collect.

U.S.A. Shipping Rate Table

Total Value of Order	West of Mississippi		Alaska, Hawaii & East of Mississippi	
	Ground	Air	Ground	Air
\$00.01-\$ 10.00	\$1.75	\$ 5.25	\$2.25	\$ 6.75
\$10.01-\$ 40.00	\$2.50	\$ 7.50	\$3.00	\$ 9.00
\$40.01-\$100.00	\$3.25	\$ 9.75	\$4.00	\$12.00
Over \$100.00	\$4.00	\$12.00	\$4.75	\$14.25

Orders to Foreign Countries

Payments for orders going outside the U.S.A. may be handled in two ways:

1. You may pay by charge card; we accept VISA, MasterCard, Eurocard, and ChargeX. You must provide the full name on the card, complete card number, expiration date, address of card holder, and for Eurocard holders the Interbank number.
2. Payment by a certified bank draft or international money order. Either must be in U.S. Dollars payable at a U.S. bank.

Shipments to APO and FPO addresses are sent via S.A.M. or P.A.L. parcel post if size permits. On orders less than \$100.00, please add \$5.00 for shipping; \$8.00 if over \$100.00. Articles too large for parcel post are sent via air freight collect, for which we need a full street address.

Overseas shipments are sent surface parcel post if they measure less than 3-1/2 feet (1.1 meters) in length or 72 inches (1.9 meters) in length and girth. For these orders add \$5.00 if the shipment is less than \$100.00, or \$8.00 if over \$100.00. We can ship air parcel post only if you provide us a credit card number to which the postage can be charged. Or we can ship the order via air freight collect.

There are no collect truck shipments to Mexico or Canada. Articles too large for parcel post can only be shipped air freight collect.

Warranty

All products are subject to manufacturer's warranty only. Racing parts cannot be guaranteed. Automotion assumes no responsibility for diagnosis, removal or installation labor, loss of vehicle use, loss of time, inconvenience, or any other consequential expense. Automotion's liability is limited to original cost of merchandise.

Back Orders

Merchandise temporarily out of stock will be placed on back order and shipped immediately when available. We try to avoid back orders and will notify you of any significant delay.

Prices

Due to changing monetary rates and rising costs, price changes may occur at any time and without prior notice. We do our best to hold prices down. We have been able to maintain many of our old prices without any increase, and in some cases have been able to lower prices.

Manufacturers may change designs or materials without prior notice, in order to improve a product, or because the original material is no longer available.

Return Merchandise

Contact us immediately if you feel you have received incorrect or defective merchandise. **Do not send back merchandise without first contacting us for an authorization number.** Our shipping department refuses any unauthorized returns. Please contact us so we may give full instructions and an authorization number. This will save you a great deal of time and expense.

Electrical items and books may be returned only if the error is ours and they are unused and in their original packaging. Special order items may not be returned. All returned merchandise must be as shipped to you—in its original packaging, unsoiled, and in saleable condition. We must be contacted within 15 days of your receipt of the order. Items ordered in error are subject to a 15% restocking charge.

SUPPLEMENT To Automotion Catalog #5

AUTOMOTION

Please take a few minutes to help us out.

Automotion is a Porsche specialty store—selling to a very small group of consumers. We'd like to reach the greatest number in the most efficient way. To do this, we'll need a few minutes of your time. Because your time is valuable, we will, of course, show our appreciation. The attached 10% discount order form is good for one time only, and must be returned with the survey prior to September 30, 1981.

1. Where did you first hear of Automotion? (check one box)

- ☐ Saw a catalog
Where _____
- Saw an ad:
☐ Road & Track
☐ Car & Driver
☐ Autoweek
☐ Porsche Panorama
☐ On Track
☐ VW & Porsche
☐ Motor Trend
☐ Other _____
- ☐ Received catalog supplement
☐ From a friend
☐ From other auto company
☐ Other _____

2. Since that first exposure have you: (check all appropriate boxes)

- ☐ Seen a catalog
☐ Seen a catalog supplement
☐ Seen an ad
☐ Visited our store
☐ Purchased from us
☐ Called us for advice/consultation

3. How would you categorize Automotion? (check one)

- ☐ Mainly a mail order operation
☐ Mainly a retail store
☐ Mainly a wholesaler
☐ A service/parts center
☐ A sponsor of major race teams
☐ A very small family business
☐ A place that provides good advice
☐ Other _____

4. Please rank the following in importance to you: (1 through 6—1 being the most important)

- ☐ Price
☐ Convenience
☐ Quality
☐ Dependability
☐ Selection
☐ Advice

5. (OPTIONAL) If you have dealt with Automotion in the past 2 years, please tell us your ratings: (1 = excellent, 2 = good, 3 = poor)

- ☐ Attitude
☐ Selection
☐ Pricing
☐ Knowledge of salesperson
☐ Availability
☐ Ease of making purchase
☐ Rapid shipping
☐ Other _____

6. What is your year and model of Porsche(s)?

7. Where have you taken your car for service in the last 12 months?

- ☐ Dealer
☐ One independent mechanic
☐ Several independent mechanics
☐ Do some service myself
☐ Do all servicing myself

8. Do you know whether the parts used by your mechanic are factory parts?

- ☐ Yes ☐ No

9. Would you consider using other than factory parts to replace: (check box for yes)

- ☐ Spark plugs
☐ Air/oil filters
☐ Brake pads
☐ Clutches
☐ Piston/cylinders
☐ Wiper blades
☐ Valves
☐ Shocks

10. Do you drive your Porsche: (check one)

- ☐ Gently
☐ Moderately hard
☐ Hard
☐ Autocross/Slalom
☐ Solo I/Time trial
☐ Amateur road race
☐ Professional racing—IMSA, Trans-Am

11. Have you considered: (check box for yes)

- ☐ Suspension modifications
☐ Non-factory wheels
☐ Vehicle restoration
☐ Transmission modifications
☐ Different seats
☐ Appearance accessories (stripes, rear lens kits)
☐ Performance accessories (spoilers, flares, etc.)
☐ Other _____

12. What is your ZIP Code? _____

13. Do you have the Automotion Catalog #5?

- ☐ Yes ☐ No

14. If yes, do you find it valuable?

- ☐ Yes ☐ No

Can you suggest any way it might be improved (other than making it free, of course)?
